

# Vocabulary

## **Angler**

A fisherman or fisherwoman.

## **Bass boat**

A fiberglass or aluminum boat designed with an open deck space and equipped with sonar technology to locate fish, livewells to keep fish alive, and a silent shallow water motor used to get to bass in shallow areas.

## **Livewell**

Aerated tanks in a bass boat that keep fish alive in tournaments.

## **Lure**

Artificial representations of prey used to target bass.

## **Topwater**

A lure that makes commotion when worked or sits on top of the water to instigate a bass strike.

## **Blowup**

When a bass destroys a topwater lure.

## **Fly-fishing**

A type of fishing where weightless flies are used to target primarily trout.

Because the flies are weightless, fly fishing mainline is weighted in order to cast.
